WORK EXPERIENCE

Databricks - Data Engineer

2022 - current

San Francisco, CA

- Led a team of 11 in deploying Docker containers for scalable and consistent application environments
- Designed machine learning models using TensorFlow, enhancing predictive analytics capabilities by 38%
- Implemented data streaming with Spark Streaming, **reducing data latency from 22 minutes to 33 seconds**
- Managed six data engineers using Bitbucket for version control, expediting project timelines by 39%

Twitter - Data Scientist

2020 - 2022

San Francisco, CA

- Authored research papers on social network analysis that gained 621 academic citations in four months
- Monitored machine learning deployment on AWS SageMaker, maintaining a 96% model accuracy rate
- Developed visualization dashboards on Tableau, **offering insights that aided 16 key executive decisions**
- Analyzed large-scale user data using Apache Spark, increasing user engagement by 22%

Salesforce - Data Analyst

2018 - 2020

San Francisco, CA

- Processed large datasets using SQL and Snowflake, reducing data retrieval times by 44%
- Organized data integration processes using Talend, amplifying flow and reducing inconsistencies by 28%
- Automated routine reporting tasks, **saving 52 hours of manual work per month** and boosting productivity
- Executed data quality checks and anomaly detection with Databricks Delta, enhancing data reliability

EDUCATION

California Institute of Technology - Bachelor of Science, Computer Science

2014 - 2018

Pasadena, CA

SKILLS

- Apache Spark
- Talend
- Amazon Web Services (AWS)
- Snowflake
- Bitbucket
- Tableau
- TensorFlow
- Spark Streaming
- Databricks Delta
