Summary

Innovative software engineer with **3.6 years experience** in full-stack development and expertise in JavaScript frameworks like Node.js and Angular. Adept at building scalable applications and solving complex problems, with a strong background in both frontend and backend development.

Education

Sagar Institute of Research and Technology (SIRT)   Graduation date: Jun. 2023
Bachelors of Technology, Computer Science(CS)   *GPA: 8.14/10*

Skills

Programming Languages: Javascript (3.6yrs), SQL (2.5yrs), JAVA (6 months), HTML (4 yrs), CSS, JavaScript, Bash, Go
Databases: MySQL(2yrs+), MongoDB(1.5yrs+), PostgreSQL (PSql)
Cloud Platforms: AWS (2yrs+, EC2, S3, RDS, IAM), GCP
Tools & Technologies: Angular (2.5 yrs+), NodeJs (3.2 yrs), ChartJS, Bootstrap, Spring Boot (6 months), Git (4 yrs), Linux (2 yrs), Docker, Python, GPT, Terraform, Jenkins (CI/CD), Nginx
Non-Technical Skills: Problem-solving, Adaptive learning, Effective communication, Teamwork

Experience

HackerKernel   Sep. 2021 - Present
Software Engineer   *NodeJS, ReactJS, Js Angular, MySQL, MongoDB, Git, Github, Bootstrap, JQuery, Nginx, CI/CD*

- Demonstrated expertise in NodeJS, Angular, MySQL, MongoDB, Git, Github, Nginx, and CI/CD, contributing to the development of robust, scalable backend systems and responsive frontend interfaces.
- Successfully integrated advanced features like 360 image rendering, Gantt charts, and fabricJS, enhancing user experience and staying at the forefront of technological advancements.

Unchaai   Jun. 2021 - Mar. 2022
Web Developer | Graphic Designer (Figma)   *Wordpress, Figma, Canva*

- Expertise in web development and design, specializing in WordPress for efficient content management, creating visually appealing and functional websites. Proficient in using Figma for design collaboration and Canva for graphics, ensuring a seamless blend of aesthetics and functionality.
- Successfully integrated innovative design elements using Figma, ensuring a user-centric approach in website development. Leveraged Canva for graphic design, enhancing visual appeal and brand consistency across various digital assets.

Projects

ColabTools   May. 2022 - Ongoing
Ultimate SaaS intelligence tools for Construction Companies   *NodeJS, Angular, MySQL, Git, Github, Bootstrap, JQuery*

- ColabTools revolutionizes construction project management with its integrated mobile app, ensuring seamless updates on site progress, automated labor attendance, and efficient quality control.
- The system's cohesion extends to the integration of labor, quality control, and billing modules, creating an ecosystem where data flows seamlessly.

Bridge   Sep. 2022
It helps students grow their network, discover internships, and more.   *NodeJS, Angular, MongoDB, Git, Github*

- Successfully integrated Socket.io to create a real-time chat system, enabling seamless communication between users, showcasing a strong grasp of asynchronous communication.

Amazon Clone   May. 2021 - May 2021
Creating an Amazon-like website using React.js   *ReactJS, Firebase, Git, Github, JQuery*

- UI/UX Design: Mimic Amazon's layout and design, focusing on responsiveness.
- Data Management: Integrate with APIs for product data and implement search/filter features.
